

SlideRenu®

PRODUCT DATA SHEET SLIDESOAP™ WATER SLIDE CLEANER

DESCRIPTION

SlideSoap™ is a uniquely formulated foaming technology that encapsulates dirt to remove a variety of surface contaminants from water slides. It may also be used on dry playground poly-slides. The constant release of micro-action foaming bubbles loosens dirt, body-grime, bird droppings and other residue allowing it to be rinsed easily away without removing slide waxes or other surface protectants. SlideSoap™ contains no volatile organic compounds (VOC's), petroleum solvents, bleach or ammonia and is biodegradable.

RECOMMENDED USES

SlideSoap™ is recommended to be used as a routine maintenance water slide cleaner to emulsify dirt, body-grime, bird droppings and other surface contaminants so they can be easily rinsed away with a pressure washer. Used regularly, it helps prevent excessive build-up of surface contaminants. This highly-concentrated foaming bubble technology can be used throughout the operating season and won't strip wax or harm any type of water slide protectant.

DIRECTIONS FOR USE

Product must be diluted in water; 6 oz. product to 1 gallon of water. "IT DOES NOT REMOVE HARD WATER MINERAL DEPOSITS OR CALCIUM BUILD-UP". Use SlideRenu® Calcitrol™ to remove calcium carbonate or calcium silicate surface deposits (Refer to Product Data Sheet for Application Instructions) For SlideSoap™ to be the most effective, it must be agitated on the surface with a brush in order to release a constant amount of dirt suspending foaming bubbles. Always wash water slides when the surface is cool and not in direct sunlight. The foaming bubbles should remain on the surface for 5-10 minutes. Do not allow the soapy water to dry. For

superior results, add SlideSoap™ to a pressure washer system at 1 gallon per 1,000 sq. ft. of surface to be treated (dilution ratio of 1:250 is typical) and apply using a foam gun or cannon. Rinse off with potable quality water through a pressure washer until the foaming action stops. A final rinse with free-flowing water (nozzle off a hose) is recommended to allow the water to sheet-off the slide.

PROPERTIES

- APPEARANCE: Light Red / Pink Liquid
- ODOR: Mild Cherry Scent
- COVERAGE: 500 Sq. Ft. / Gallon of Mixed Product (6oz. SlideSoap™: 1 Gallon Water)
- VOC's: None
- PH: Neutral
- SHELF LIFE: 24 Months. Keep From Freezing. Thaw Before Use.
- APPLICATION TEMPERATURE: 50F – 100F.
- FLAMMABLE: No
- BIODEGRADABLE: Yes

DO NOT MIX THIS PRODUCT WITH ANY OTHER CHEMICALS

CAUTION: KEEP OUT OF REACH OF CHILDREN

Eye and skin irritant. In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists, seek medical attention. If swallowed, take large amounts of water. Do not induce vomiting.

This product is available in 1 Gallon bottles and sold exclusively by SlideCare, LLC.
